

Coffee

REVIEWS

A favourite? I can't pick just one but I can honestly say it's a favourite album! It's an album that I sing along with and enjoy it all. Coffee itself relates to everyone and the simple pleasure of getting together with a dear friend. A thing we all need. Battleground... we all go through rough times. This beautiful song acknowledges that, yet uplifts and is comforting. 13 Tears... gently shines a light on tragedy... a beautiful tribute and gives hope. Modern Day Jane Eyre!!! Talk about fun and empowering! From the very start, it draws you up onto your feet and you're dancing before you know what hits you! I draw something from each song off of the album. I need to get working over here...hm. Going to put 'Coffee' playing to make the chores more fun!

An absolute triumph! An eclectic range of musical genres to suit many musical tastes with masterful song writing, instrumental collaboration, and vocals. I absolutely love a violin! The addition of this and the harmonica in some of the songs really elevates the lyrics and takes you to another place within the music. 'Modern Day Jane Eyre' makes me want to get up on my feet dancing and celebrating who I am, while 'Coffee' gets me on the phone organising my next catch up with friends and family. An inspirational album with every song full of meaning, sparking a range of emotion. Scott is an amazing lyricist and performer with a passion for life and sharing his expertise, enthusiasm and experience with others. An album should offer an insight into the artist themselves, their experiences and journey through life, as 'Coffee' does. The compilation of songs on this album convey a truly talented musician with something meaningful to say through his music. Have a listen and enjoy the ride! You will not be disappointed.

My first thought when I heard the songs in this album was, wow! I had heard most of the songs sung acoustically but now hearing them completed for the album, the arrangements orchestrated for each song are amazing. The vocals are exceptional. Each song has its own distinct style. The lyrics are outstanding. This is some of Scott Nicol's best work yet!

The title song "Coffee" is fun and addictive! Lyrics are inviting and written with the spirit of spending quality time with a true friend.

Scott has a profound way of writing and putting himself, and the listener, into situations that are heartfelt and moving for example on "Swimming in Regrets" and "13 Tears." The lyrics are outstanding and the music beautiful.

"Only So Many Summers" and "Battleground" have great inspirational lyrics that give great advice on how to live life. Uplifting for the toughest times and a reminder that God is always near. Also, that we need to live our lives to the fullest! The music behind each song is clearly beautiful.

"Modern Day Jane Eyre" is fast paced with a lot of energy. It makes the song fun to not only listen to but also get up and dance with its bouncy tune. It is a great tribute to women! The lyrics give women and really anyone, reasons to be the best they can be! Love it!

"Lonely" is a great tribute to the beautiful woman in his life and all she is to him. The vocals are outstanding. The harmonica gives a great extra touch. We should never be lonely especially living with the one we love. A great reminder.

The whole album is refreshing and beautiful!!!
